

Fuji Xerox Broker Solutions

Digitising document heavy processes can help brokers reduce the amount of time they spend managing paperwork and improve their customer experience, freeing up time to spend focusing on client needs.

Help your business move towards a digital future and reduce the burden of paperwork consuming valuable time and resources.

Digitise document heavy processes so you can reduce administrative costs, streamline the client experience, and strengthen client relationships with clients through effective communication technologies.

Fuji Xerox can assist you to improve your business-critical workflows through digitalisation, to help with compliance, reducing costs, and maximising the profitability and lifetime value of each client.

Start by digitising a single process, with a clear roadmap that takes account of your existing systems.

Fuji Xerox can help you transform for the future. That's why over 270 Australian brokers rely on us.

DOCUMENT AND WORKFLOW SOLUTIONS

In today's competitive environment, exceptional client service is essential to set yourself apart. Digitisation gives your business the power to handle paperwork more efficiently and channel valuable time and resources into superior client care. Digitising and optimising document workflows offer organisations compelling benefits, including an average 35%

reduction in costs, 42% reduction in paper documents, and 52% reduction in errors.*

Fuji Xerox can help you:

- Simplify the way you manage information, to reduce the cost to serve a client. Replace paper forms with eForms to streamline client information management.
- Free up staff to focus on the client experience. Reduce the time brokers spend on admin by digitising documents and modernise document workflows.
- Provide fast, mobile access to client information, with the ability to access digitised documents quickly and securely from the cloud.
- Streamline communication channels across the client journey, allowing efficient communication without compromising on customer experience.
- Simplify onboarding and other processes. Digitise onboarding documents and link that information directly into record management systems – removing time-consuming data entry.

ADMINISTRATIVE SOLUTIONS

Reduce the cost to serve your client without compromising on client experience. Free up time and resources by improving the efficiency of your administrative operations, reducing print costs and paperwork.

Fuji Xerox can help you to:

- Create the optimal print environment. Save paper, power and money, and increase sustainability with complete control of printing.
- Track all copying, printing, faxing and scanning to reduce and/or recover costs.
- Provide security of client information with secure printing.
- Reduce the time and cost of record management with digitised workflows and eForms.
